Corporate Profile

Brief Overview:

At dharmah.h – Innovation is a way of life. dharmah.h is “*Where Creativity Is Religion*”.

Our inception dates back to the year 1998. Our tread through these years in technology, technological evolution, implementation of technology in various different scenarios and creation of value based business models has seasoned our approach to **Value Creation**.

With a past and present experience of working on a whole gamut of varied projects for Large Fortune 100 Corporations to small organizations, Government Projects to Private Organization Projects, deploying, designing various revolutionary solutions in varied environments and partnering in Value Creation; we are proud to have a valuable base of Partners who have continuously provided repeat businesses and also partnered in our continuous growth.

dharmah.h is expanding its horizons overseas and is coming up with International Presence through its Solution Partners in US and a marketing and level 1 support presence in UAE.

We have a gamut of our own flagship products which are marketed in India and overseas. Our dedicated Product Development Team is constantly at work engineering and creating newer and Revolutionary Products.

We have Servers located in Miami, Florida and housed at our Office Premises for maintenance of large databases and other Services.

dharmah.h – is Certified Microsoft Partners, Oracle Partners, Nokia Development Partners.

Our Product Gamut:

<http://www.timecontrol.in>

Time@Control – is a Time Attendance Management Solution – which as of now is marketed in UAE.

The USP of the Product is its architecture in managing Organizational Policies and Flexibility in Time Attendance Systems. Besides this, Time@Control – provides an Open Device Platform – where it allows Device Manufacturers to connect to their devices. We have an Open Device connectivity system – which means – that you can use a Centralized Application – and not be concerned about which device you are using. It has the capability to support almost any time attendance device capture systems.

RMC2 – is a complete Restaurant Management suite. From your Sales, Stores & Inventory – it manages it all. With advanced BI and Analytics – with RMC2 in place – you have your restaurant in control.

HMS – Hotel Management System – is a complete Hotel Management Suite taking care of all process of the Hotel Industry.
